

CLAIMS

What is claimed is:

1. A method comprising:
accessing a global computer network;
accessing a list of celebrities;
selecting a particular celebrity;
for the selected celebrity, selecting a time designation associated with one or more photographs of the selected celebrity and one or more additional persons;
viewing at least one such photograph displayed responsive to such selection of such time designation; and
causing a print of said photograph to be made.
2. The method of claim 1 further comprising:
accessing an event-specific site or page prior to accessing the list.
3. The method of claim 1 further comprising:
accessing an organization-specific site or page prior to accessing the list.
4. The method of claim 1 wherein said print is printed on a printer connected to a computer of the user or on a local network associated therewith.
5. The method of claim 1 wherein said print is printed remotely and the method comprises providing instructions for delivery of said print.
6. The method of claim 5 wherein said instructions comprise instructions for delivery of said print to a third party who is among the one or more additional persons in the photograph.
7. The method of claim 1 further comprising:
providing a payment for said print; and
receiving a receipt for said payment.

8. The method of claim 7 wherein said receipt indicates that at least a portion of the payment is tax deductible.
9. The method of claim 1 further comprising identifying a name of at least one person of the one or more additional persons and specifying that the print bear the name of the identified least one person and be autographed by the selected celebrity.
10. A method comprising:
 - via a publicly-accessible computer network:
 - for a given public figure, permitting a user to select a photograph of said public figure based upon identifying information comprising information associated with the time or time period the photograph was taken;
 - permitting the user to purchase a copy of the selected photograph; and
 - permitting the user to specify that the photograph copy be autographed by the selected public figure.
11. The method of claim 10 wherein said identifying information comprises:
 - information identifying a particular camera or a particular photographer or a particular location from a plurality of cameras or photographers or locations at a given event.
12. The method of claim 10 further comprising:
 - permitting the user to select the selected public figure from a group of public figures;
 - permitting the user to download a first quality of image of the selected photograph without charge; and
 - permitting the user to purchase a second quality of the selected image.
13. The method of claim 10 further comprising:
 - providing the user with the option of selecting a name to which the public figure is to address the autograph.
14. The method of claim 10 further comprising:
 - providing the user with the option of choosing from a finite pre-approved selection of messages for the public figure to write with the autograph.

15. The method of claim 10 further comprising:
providing an indication that a portion of any purchase payment will be donated to charity.
16. The method of claim 10 wherein:
the identifying information comprises an indicia of when the photograph was taken.
17. The method of claim 10 further comprising:
providing a receipt indicating an amount that is tax-deductible.
18. The method of claim 10 further comprising:
permitting the user to select a charity to which a portion of a payment of the user will be donated from a finite group of charitable organizations.
19. A computer or an interconnected plurality of computers coupled to a computer network, said computer or said interconnected plurality of computers running software specifically adapted for:
 - (a) permitting each of a plurality of first users, each having a first user computer, to access photographs of one or more first persons;
 - (b) permitting such first user to select a photograph from said photographs based upon identifying information comprising information associated with the time or time period the photograph was taken;
 - (c) permitting such first user to purchase a copy of the selected photograph; and
 - (d) permitting the user to specify that the photograph copy be autographed by at least one of the one or more first persons.
20. A computer or an interconnected plurality of computers coupled to a publicly-accessible computer network, said computer or said interconnected plurality of computers running software for:
 - (a) maintaining an electronic data structure of digital photographs of a plurality of one or more first persons, the electronic data structure including information

identifying the one or more first persons and identifying respective times associated with the taking of the photographs;

- (b) permitting each of a plurality of first users, each having a first user computer, to use such first user computer via the publicly-accessible network to access said photographs based upon said information comprising information associated with the time or time period the photograph was taken;
- (c) permitting such first user to selected a photograph from said photographs;
- (d) permitting such first user to purchase a copy of such selected photograph; and
- (e) permitting such first user to specify that the copy be autographed by at least one of the one or more first persons.
